Parrot Clips

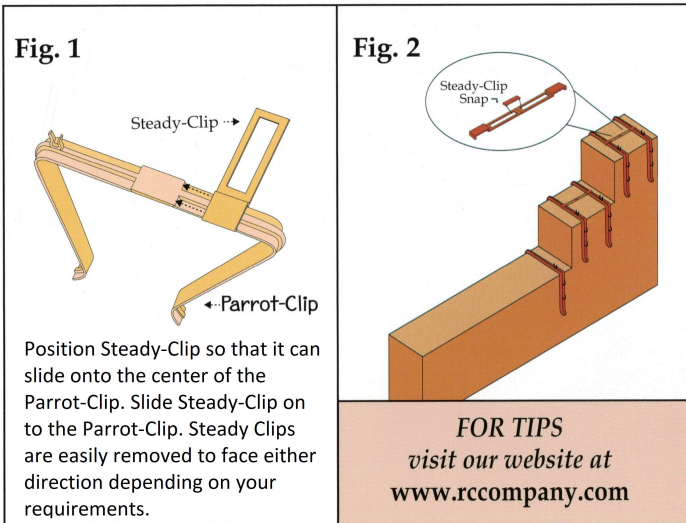

THE ULTIMATE IN HANGING CHRISTMAS LIGHTS & DECORATIONS

for **SANTA FE STYLE HOMES** and *Block Walls & Fences*

- Place Parrot Clip on parapet walls or block fences spaced approximately 3 to 5 feet apart. Parrot Clip's unique pliable design allows them to fit on most walls or fences.
- For best results slide Steady-Clip on the center of Parrot Clip (fig. 1). Face steady-clip in the direction you are stringing lights. Steady-Clips are usually needed only at the ends and middle of light strings.
- For stair step walls (fig. 2) Place Parrot Clip with Steady-Clips installed facing each other on parapet or block wall. After Parrot Clips are on the wall, align the Steady-Clips and press on Steady-Clip Snap.

Plus! Parrot Clips are also ideal for hanging signs, flags, banners, etc.

Parrot Clips were designed to be a safe-easy-fast-fun way to hang Christmas lights & decorations on homes and businesses with parapet or block walls. Parrot Clips are made of smooth plastic that easily conforms to most walls. There is no need for nails, screws, lag bolts, staples, etc. that will cause noticeable damage to your property. Although Parrot Clips are strong enough to hold over 10 lbs., they are not designed for large wood or metal decorations. To avoid injury, please use common sense when using Parrot Clips. We will not be held responsible for improper use of Parrot Clips.
